**Aliens, The Great Deception**

The whole family will enjoy this talk as we answer the questions: “Does the Bible really talk about dinosaurs?”, “Did dinosaurs really live millions of years ago or did God create them on day 6 with the rest of the animals?”, “Wouldn’t Adam have been afraid of the dinosaurs?”, “How could Noah get dinosaurs on the ark?”, “What really happened to the dinosaurs?” The other great deception of our age is that aliens seeded life here on earth, so they are our creators. This talk gives the history of this great deception and ends with seeing it all through Biblical eyes.

**Worship Service – 11:00 a.m.**

**Eyewitness History II**

Those who disbelieve the Bible have devised another explanation of how we got here without God, and they have been successful in convincing generations that their belief is fact. However, we have an Eyewitness of all of history from the beginning to the end. God told us how He created a perfect earth, but because Adam sinned, we now live in a broken world where all are in need of a Savior. God told us how He judged the earth in a global flood, and then changed the languages of all people, thus scattering them across the earth. Since these are all literal historical events given to us by Someone who was there, we would expect observations in the present to confirm these events. And they do! This talk will conclude with the gospel message and show how this history, starting in Genesis, shows Jesus is the only way.

Deuteronomy 6:6-7 ESV

And these words that I command you today shall be on your heart. You shall teach them diligently to your children, and shall talk of them when you sit in your house, and when you walk by the way, and when you lie down, and when you rise.
